Applicant's election with traverse of claims 1-15, Group I, in the reply filed on 08-12-2004 is acknowledged.

The disclosure is objected to because of the following informalities: On paragraph 14, line 3, "silcon" after "dielectric layer 105 is" should be replaced with --silicon--.

Appropriate correction is required.

Claims 1-15 are objected to because of the following informalities:

The term "predetermined" in claim 1 is a relative term, which renders the claim indefinite. The term "predetermined" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. If applicant intends a particular relationship, it should be clearly recited.

The term "predetermined" in claim 6 is a relative term, which renders the claim indefinite. The term "predetermined" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. If applicant intends a particular relationship, it should be clearly recited.

Appropriate correction is required.

Art Unit: 2823

Claims 2-5, and 7-15, would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 1 and 6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
